Resort and therapeutic centre

Oristano area (Sardinia, Italia) 2002/2005

dining rooms

kitchen

rooms for hydrotherapy

Resort and therapeutic centre. Oristano area (Sardinia, Italia)

The buildings have been built according to a functional separation: common sitting and dining rooms, kitchen, bedrooms and rooms for hydrotherapy and medical care. Here, people find a chance for meditation and body care. Rooms are marked by the sobrie ty and primitive semplicity, typical of Sardinian tradition, melted to gaiety. We based on colour, which influences indoor light.
